STATE FIRE MARSHAL
ARCHITECTURAL SECTION

MEMORANDUM

December 18, 1995

TO: All District Supervisors

FROM: Michael F. Cammarosano
Administrative Director

RE: Alarm Systems

— IF AN EXISTING DAY CARE HAD ALARM [redacted] THAT WAS NOT OPERATIONAL AND CITED, REVIEW BASED ON OLDER STANDARDS (72).

In order to clear up any confusion concerning Fire Alarm Systems and Day Care Centers, Jerry Jones and I met and came to the following conclusion:

CHIEF ARCHITECT 12/19/

1) If a Day Care has not had an Alarm System and is putting one in, they must meet the requirements of 1994 Existing Chapters for existing Day Cares and new chapter for new Day Cares.

2) If a Day Care is existing and has an Alarm System and the System is going to be modified or changed, then they will be viewed under the Code that was applicable when it was installed.

I hope this will clear any problems which may have come up.
