

# Louisiana Fire Department Directory

Office of the Louisiana State Fire Marshal  
8181 Independence Boulevard  
Baton Rouge, Louisiana

Dear Friend of the Fire Service:

For years this has been one of the most popular and useful tools in the fire service. We at the Office of the State Fire Marshal strive to ensure its continued publication and accuracy. The information used to create this directory is pulled from our Fire Department Assets database that was developed in cooperation with our office and the participating fire departments of Louisiana.

I hope this publication will be of benefit to you in contacting the fire service of this state. As always, if there is anything that my office can do to assist you, please do not hesitate to contact us.

Sincerely,

H. "Butch" Browning  
State Fire Marshal

**NOTE:** We apologize for any discrepancies, however the information included in this directory is only as accurate as the information provided to us by the participating fire departments.

BB/nlm

## Forward

---

The Louisiana Fire Department Directory will be updated monthly. The date the posted directory was updated will be given on the upper right hand corner of each page of the directory.

The information in the first section of this publication is listed in numerical order by Fire Department Identification Number (FDID)\* by parish with Acadia Parish being listed first and Winn Parish last. The information in this section includes the fire department name, both physical and mailing addresses and contact information. Also included is the department type designation - whether the fire fighters that respond on behalf of the department are paid, volunteer or a combination of the two.

The second section provides a listing of each fire department in alphabetical order by department name and gives the department FDID and parish location.

Some fire departments are chartered and respond to incidents in multiple parishes. These departments will have multiple FDID numbers and will be listed under all applicable parishes.

For information on Fire Department ratings, please contact PIAL (Property Insurance Association of Louisiana, [www.pial.org](http://www.pial.org)).

The information posted in this directory reflects that data collected during the State Fire Marshal Asset Tracking Initiative of 2009. The database developed as a result of initiative is maintained at the Office of the State Fire Marshal.

## Updates & Corrections

If you find information in this directory that is incorrect or missing, please submit the updated information directly to the Fire Marshal's Office via the Fire Department Info Update form on the Fire Department Directory page. You may access the form and page directly at [http://lasfm.org/sfm\\_directory.htm](http://lasfm.org/sfm_directory.htm)

All update submissions must include the department FDID number and the name and contact number of the person requesting changes. Submissions without this information cannot be processed.

If a department does not appear in the directory, a representative of that department must contact our office for correction.

---

\*The FDID is a five-digit identification number which is assigned by this office.
