door opening solutions

Door Opening Essentials Baton Rouge, June 17-21, 2013

ASSA ABLOY Americas University.com

Learn the process of supplying Architectural Hardware to the door opening!

ASSA ABLOY Americas University is proud to offer a 5-day low cost educational program tailored to cover all the essentials of the process of supplying Architectural Hardware to the door opening!

You will learn the three parts of a specification, review of basic Architectural hardware, the different codes & standards and the affect they have on the total opening, blue print reading review, how to schedule the correct door hardware for various openings.

Master keying, the key meeting, estimating, and proper ordering technique exercises will help to sharpen your skills and bring favorable results to each project. Tips to jobsite trouble shooting and preventative maintenance will ensure a fully functional & secured opening.

Only one class from one source can tie the entire process together at one time.

This is an entry level program designed for those individuals who would like to sharpen their skills in the overall process of successfully bidding, scheduling, ordering, furnishing and servicing a project with Architectural hardware.

Accreditation & Certifications:

This class has been approved for continuing education credits from the Associated Locksmiths of America for the states of Alabama, Texas and North Carolina. It also has been approved by the State of Louisiana's licensing board for contract hardware personnel, door hardware service personnel and fire marshals.

Attendees will learn:
