Highlights

- Identify and review all locking systems specifically allowed by NFPA 101 and SFM policies.
- Review all SFM Interpretation Memorandum that apply to locking systems.
- Provide a checklist of what to submit for each type of locking system.
- Review the requirements for special locking, 2006 & 2009 editions of NFPA 101—Life Safety Code.
- Identify when a design professional is required to be involved in your submittal.
- Explain how to find required “listing” documentation from the UL website.
- Identify items that would typically cause a submittal to be denied.
- Review procedures for submittal of detention locking systems.
